

ALTO SCRUBTEC 795, 784 & 770 – WHY COMPROMISE

Battery powered Walk-Behind floor scrubber for big jobs

Nilfisk ALTO

Why Compromise

Clarke

TECHNOLOGY

High productivity

- Large solution and recovery tanks
- Long running time
- Close edge cleaning
- Transaxle drive
- Accu-Track break away squeegee
- Large pneumatic traction wheels
- Automatic squeegee lift in reverse (L-Models)
- Clear sight tube on the solution tank that indicates the solution level
- Gimbal mounted brushes

Long life – low maintenance costs

- Low voltage cut off to protect the batteries
- High recovery drain for easy emptying
- Adjustable brush pressure ensures a perfect cleaning result on all type of floors
- No tool squeegee adjusting
- Automatic brush off in neutral protects the floor from being damaged
- Rugged polydur solution and recovery tanks
- Squeegee blades can be used on all four edges
- The squeegee break away feature protects the machine and the inventory

Driver comfort

- Ergonomic controls
- Easy to operate
- Front or rear fill
- One touch scrub control
- Multi-function display
- Automatic brush and solution on/off in neutral makes the machine very userfriendly in daily use

Focus on safety

- Excellent line of sight
- Dynamic breaking
- Safety yellow palm start buttons
- Key switch to prevent unauthorised use
- Circuit breaker on all electrical components

SCRUBTEC 795, 784 & 770 L/S have two powerful brush motors, this combined with the Accu-Track break away squeegee assures a perfect cleaning result and a complete solution pickup. The break away feature prevents impact damage to the machine or property.

Deep scrubbing

The new ALTO SCRUBTEC 795, 784 and 770 L/S range of walk-behind scrubbers provides you with the best traction in double scrubbing and ramp cleaning, and the products provide safety, not only for the operator, but also for the people walking the places where the machines have cleaned because they leave the floor dry to reduce slip and fall hazards.

The machines are available with three different widths of the scrubbing path, 95, 84 and 70 cm. Thanks to the low height off-set brush deck, close edge cleaning is very easy and efficient. This eliminates costly secondary operation.

Another significant advantage of the new SCRUBTEC L walk-behinds is the control system that allows all normal scrubbing functions to be activated by a single touch of a button for convenience and minimal operator training.

Typical applications can be found in retail stores, distribution centres, warehouses, office buildings, schools & universities, cleaning contractors and manufacturing plants.

The new large ALTO SCRUBTEC walk-behind range keeps focus on the operator with comfort, safety and fun, and for the buyer with productivity, low maintenance costs, employee satisfaction and labour savings.

Flexible in use

- Retail Stores
- Office Buildings
- Distribution Centres
- Schools & Universities
- Warehouses
- Cleaning Contractors
- Manufacturing Plants

L models features

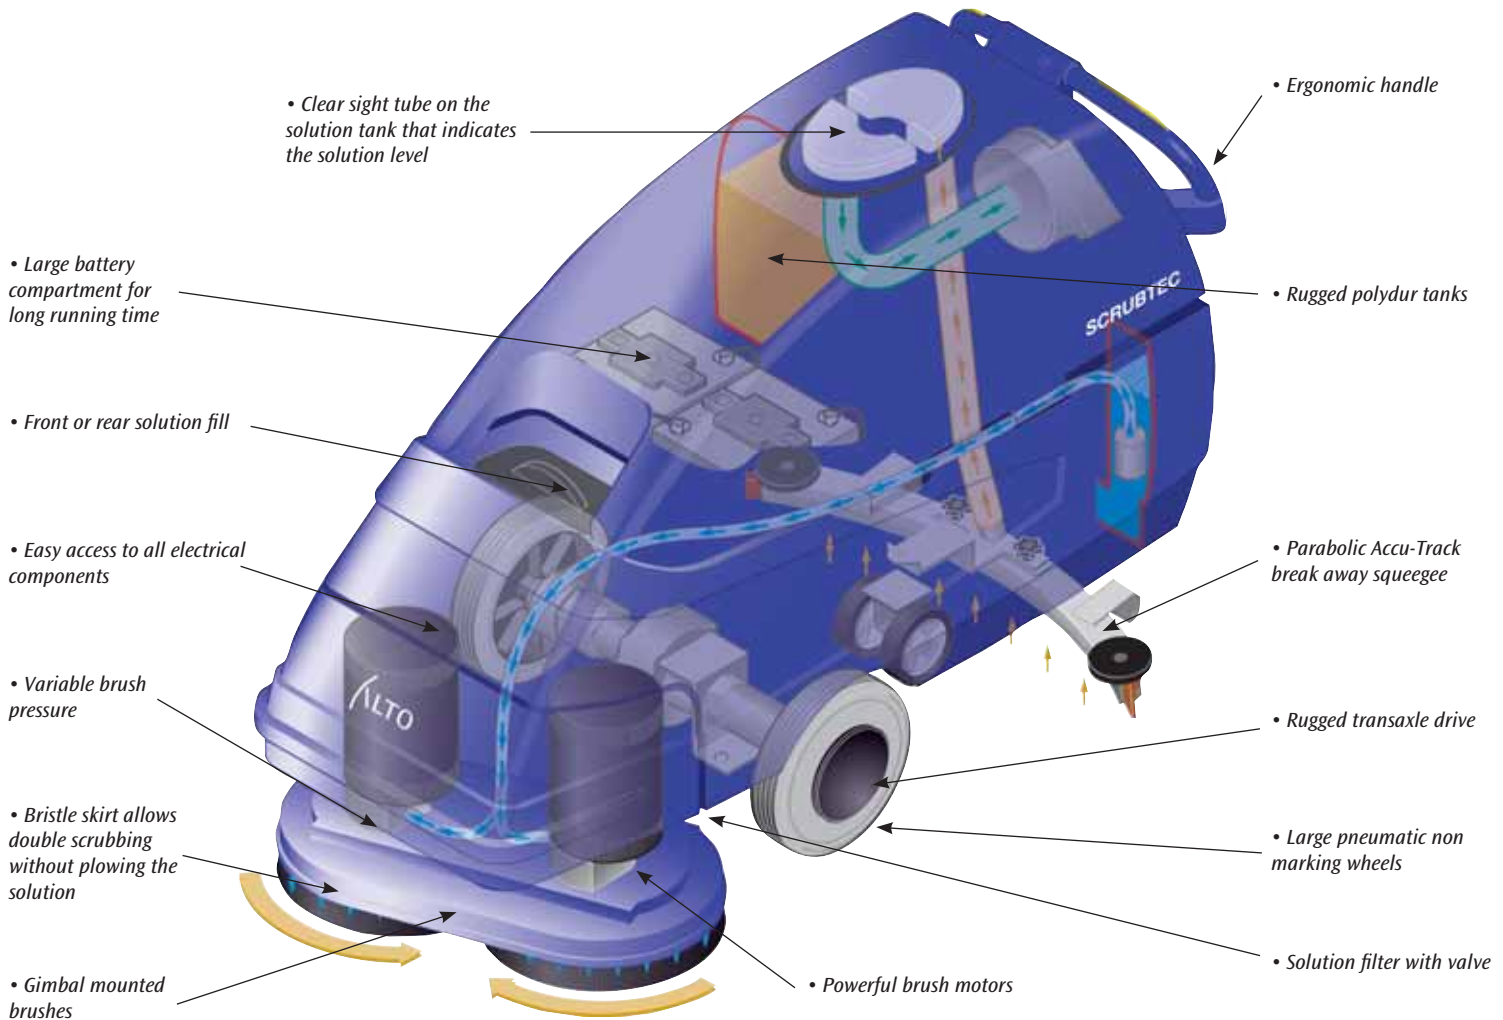

- One touch scrub control
- Multi-function display
- Speed control
- Solution flow regulation
- Auto squeegee lift in reverse
- Adjustable brush pressure
- Key switch
- Ergonomic palm start buttons

S models features

- Speed control
- Solution flow regulation
- Adjustable brush pressure
- Key switch
- Ergonomic palm start buttons

Value for money

Choose the perfect scrubber for your needs

The ALTO SCRUBTEC 795, 784 & 770 L / S series offer a choice of six models:

Three standard models (S) and three luxury models (L), available with either 95, 84 or 70 cm cleaning path. We also provide a wide range of options so you can custom-build your scrubber to match your specific cleaning needs.

S for Standard, L for Luxury
