Why Compromise

BOOST™

New definition in scrubbing efficiency!

For years the only way to productively clean and maintain smooth tile or concrete floors has been with a single or twin disc automatic scrubber using rotating pads or brushes.

This orbital motion requires less pad/brush pressure and attacks the dirt from multiple directions as it passes over the floor.

The unique BOOST™ pad/brush is rectangular, not round, and provides consistent contact across the cleaning path. Using less water during cleaning keeps the operator working productively, rather than emptying and refilling the scrubber tanks.

With the SCRUBTEC BOOST, cleaning solution is introduced in front of the rectangular scrubbing pad/brush via patented pulse solution control.

Choose between a walk-behind or a ride-on model.

Thanks to the unique scrubbing system is the requirement for brush pressure reduced which gives longer running time and pad life

- **50% - 70% less water consumption.**
The orbital action contains the cleaning solution in the brush deck and carries it for the full length of the pad/brush. Compared to traditional disc scrubbers that sling water away from the pad, BOOST's efficient use of the cleaning solution results in water savings of 50% to 70%.
- **50% - 70% less chemical consumption.**
Using less water means using significantly less cleaning chemical. With the SCRUBTEC BOOST, there is no need to change your current floor care chemical program.
- **25% increase in battery runtime.**
The reduced water usage and reduced pad/brush pressure enables the SCRUBTEC BOOST to utilize the motors and battery pack more efficiently which translates into an increase of run time of up to 25% compared to similar disc scrubbers!
- **40% increase in pad life.**
Less pad pressure is required to achieve the desired cleaning result since the dirt is attacked from multiple directions. The combination of high RPM orbital action at reduced pad/brush pressure can extend the life of your floor pads by up to 40%!
- **Less down time means of fewer empty and refill cycles.**
Using less water during cleaning keeps the operator working productively rather than emptying and refilling the scrubber tanks.
- **Cleaner floors equal more effective burnishing to extend strip and re-coat cycles.**
The cleaner floor, the more effective burnishing. With more effective cleaning and burnishing, the time between labor-intensive strip-and-recoats can be extended, which means less money spent on floor stripper and finish.

Flexible and efficient in use:

- Retail stores
- Restaurants and kitchens
- Hospitals
- Schools and office buildings
- Sport centres

Easy to change pads

Optional Chemical mixing system for all models

Reduce your overall costs - significant

- Less down time because of fewer empty and refill cycles.
- Cleaner floors equal more effective burnishing to extend strip and re-coat cycles.
- Reduced noise levels to improve operator safety.
- 50% - 70% less water consumption.
- 50% - 70% less chemical consumption.
- 25% increase in battery runtime.
- 40% increase in pad life.

TECHNICAL DATA	SCRUBTEC BOOST 5	SCRUBTEC BOOST 8	SCRUBTEC BOOST R 81 S
Pad size (mm)	510 x 356	710 x 356	810 x 356
Squeegee width (mm)	770	890	1016
Cleaning width (mm)	510	710	810
Capacity (m ² /h)	2040	2840	3250
Vacuum motor, 3-stage (watt)	330	550	750
Brush - Motor (kW)	560	560	560
Brush - Speed, orbital(RPM)	2250	2250	2250
Brush pressure (kg)	18-34	30-57	0-70
Solution/recovery tank (l)	42	85	114
Solution flow (l/min)	0.75	2.5	3.5
Power source Battery (v)	24	24	36
Weigth (kg)	96	189	361
L x W x H	1190 x 510 x 1059	1510 x 780 x 1120	1664 x 762 x 1260

The Nilfisk-ALTO brand is owned by Nilfisk-Advance A/S, one of the leading professional cleaning equipment companies in the world, with a turn-over of Euro 789 million and 4.900 employees.

Our headquarters is in Denmark and we have sales companies in all main European countries, North America and Asia. Our manufacturing facilities are in Hungary, China, Italy, the USA, Singapore, Denmark and Germany.

We supply quality high pressure washers, vacuum cleaners and floor care equipment to agriculture, automotive and industrial companies, cleaning contractors and private consumers.

With the Nilfisk-ALTO brand we focus on innovation and growth. We believe in developing and maintaining long lasting relationships with our customers, suppliers and employees.

No claims can be made on the basis of information or illustrations contained in this catalogue. Subject to alteration of technical data, design and equipment.
